For images please visit the website.

Seedling number unknown. Parentage: Lactiflora 'Martha W.' (seed parent) x tree peony 'Golden Era' (pollen parent). Single to semi-double flowers, yellow with irregular red streaking. Green carpels (3-5) topped by white stigmas. Has pollen but fertility not determined. Height to 38 inches with spreading habit. Strong grower which reaches mature size at three years. Selected by Allan Rogers as a seedling from the seedling bed of Roger Anderson. Photo on file.
