Swenson Garden's seedling No. RAISS-64. Parentage: 'Martha W.' x unknown. First bloomed 2012; first propagated 2013. SINGLE. One flower per stem, 6-7 inches in size (15-18 cm). Light pink petals, cupped, generally rounded in form, edges shallowly notched. As flowers age petals begin to fade to white, beginning at the extremities. Purple flares extend about quarter the length petals. Average of 5 green carpels, moderately hairy, topped with pink stigmas of normal anatomy. Stamens devoid of pollen, filaments pink at base, yellow at tip. No seeds. Sheath pink, complete. Fragrance. Foliage typical for this type of cross, burgundy to green on emergence. Height to 26-28 inches (66-71 cm), upright mounded growth habit.
